3. RULES AND CONDITIONS APPLICABLE TO RECHARACTERIZATIONS

CGM will calculate the net income attributable (NIA) and add it to the amount of the contribution in section 2A. A recharacterization is an irrevocable election to treat a contribution as having been made to a different type IRA. The deadline for recharacterizations for timely tax-return filers is the tax deadline plus extensions (generally October 15th). If the recharacterization was not properly shown on the original tax return, the shareholder may have to file an amended return. Please see a professional tax advisor regarding tax returns. If the IRA holder is recharacterizing only a portion of the contribution amount, the IRA holder must report the amount not recharacterized on IRS Tax Form 8606. Whether reporting on IRS Tax Form 8606 or not, the IRA holder must attach a statement to his or her tax return to explain the recharacterization. Please note that a recharacterization is a tax-reportable event. You will receive a Tax Form 1099-R by January 31st and a Tax Form 5498 by May 31st of the following year.

The CGM Funds do charge fees, when applicable, for accounts involved in a recharacterization:

- \$5 establishment fee per application
- \$15 annual maintenance fee per account
- \$5 close out fee per account
